BIRTHDAY OF THEIR NATIONAL PRESIDENT.

W. C. T. U. Celebrates One of Its Red Letter Days.

After dispatching of the ordinary business of the meeting, the Women's Christian Temperance union celebrated one of the red-letter days Monday in its meeting in the Bill block, honoring the birthday of the national president, Miss Stevens. Short articles having special reference to Miss Stevens and the day were read by different members of the union in carrying out the programme.

For the business meeting, Miss Margaret G. Cross, the president, was in the chair, and after the devotional exercises the reports of the secretary and treasurer were made and accepted. Mrs. S. H. Mead reported a good sum derived from the food sale, and Dr. Lucile James reported one meeting held in Greenville under the auspices of the purity department, and another to be held next Sunday afternoon at Tatfield Congregational church.

The union passed a vote to send a letter to Congressmen Higgins, letting him know of their support of the Kenyon-Shepard bill, which is to prohibit the shipping of liquor into prohibition territory.

One recent victory achieved by the W. C. T. U. in the state was reported as resulting upon President Higgins of the consolidated road to see that no more beer advertisements on the trolley transfers in Hartford and other cities. It was stated that the argument that appealed to President Higgins was that it was inconsistent for the road to decline to hire men who were addicted to liquor, and yet put before them the invitation to drink which was contained in the objectionable advertisements.

NORWICH'S OFFER

Committee Will Give Deed of Forty Acres of Sholes Farm if Sanatorium is Built There—No Action Taken at Meeting of Commissioners But Answer to Letter is Sent—Bids Not Opened.

Very respectfully yours, J. D. HAVILAND, Chairman.

W. B. YOUNG, E. O. SMITH, JOHN ECKLES, E. A. TRACY, Committee.

The letters and proposition were considered by the commission, stated Dr. Knight, Monday evening, and a reply was sent to the board of trade committee, which he preferred not to give out, as he deemed it was the privilege of the committee to do so or not.

Dr. Knight stated that the commission did not come to a decision on the offer and he was not willing to say whether the offer was a satisfactory one. He said that the objection from the state hospital that the sanatorium would be on their watershed is one which must be considered. The land on the Sholes site, he said, is shallow in many places, being not so deep as the Post place. The fact that if the sanatorium is located on the watershed patients will be walking over the watershed, is also an objection to be considered. If another visit here to inspect sites would be made and on Monday only the Sholes site was to be visited, he thought the bids for the erection of the sanatorium buildings, which were to have been opened on Monday, were not yet ready to be opened. In the week inasmuch as two contractors here had not been supplied with plans. They have now, however, and will be ready to be opened on Monday. None will be opened until next Monday. The buildings, said Dr. Knight, will be located on the basis that the sanatorium will be located on the Post farm.

The reply of the commission to the board of trade, which it is understood further consideration will be given before a decision is reached. The confidence of the people in the treatment of tuberculosis—Wildwood and the Hartford county home at Newington—shown in the fact that many patients are coming to Wildwood there are forty-nine patients, or one short of the entire capacity of the institution. In the other building was occupied, there being 199 patients in it.
